

## OCEANIC POOL WITH SUBMERGED TREADMILL

We OCEANIC FITNESS PVT LTD stands as a Leader in the field of rehabilitation and physiotherapy through HYDROTHERAPY providing a safe and rejuvenating environment for healing and wellness.

Fully automated OCEANIC HYDROTHERAPY POOL WITH SUBMERGED TREADMILL can be made in factory or at site of any size as per requirement and can be kept on any floor of the building or even the basement of the building.

The Treadmill in Pool gives an added advantage of safe exercise Temperature controlled warm water allows muscles to relax and eases the pain in joints, thus helping give you an injury free workout. Presence of physiotherapist in pool or outside gives you an advantage and security of safe exercise in a relaxing and calming experience. The water supports weight, which helps to relieve pain and increase the range of movement in your joints.

Using OCEANIC HYDROTHERAPY POOL as part of physiotherapy treatment can lead to many benefits such as: Reduced pain, Faster recovery from surgeries- education and encouragement of normal movement, Allows standing in those who are unable to weight-bear out of the water – the buoyancy effect of water Improved walking technique, Improved aerobic fitness level, Improved balance and coordination, Increased strength of weak muscles, Increased range of movement of your joints, Improved independence and function, Improved circulation, Mobilizing and lengthening your muscles, Improve self-confidence, Reduce the fear of falling.
